Not Sure	833	47.5	44.4 - 50.6	NA	NA	NA

Data Source: Maine Integrated Youth Health Survey. Middle School survey includes 7th and 8th graders.

Based on students who reported being in the same room with someone who was smoking cigarettes at least one day during the past 7 days,

All percentages are weighted to be more representative of the population of Maine students and to adjust for non-response.

95% CI = 95% Confidence Interval.

NA = not available: sexual orientation question not included on middle school survey

** All racial categories are non-Hispanic except for "Hispanic."
